

In the Drawings:

A replacement sheet of drawings is attached showing corrected Figures 6, 7 and 8. In particular, the reference numeral 39 has been added to Figure 6 to identify the vent aperture 39, and the reference numerals in Figures 7 and 8 for raised bumpers or protuberances 71 have been clarified.

The objection with regard to reference numeral 61a and 61b has been resolved by amending the specification at page 8, lines 18-19 by changing the numerals for an apex region 61a to "60a" and a generally opposed foot region 61b to "60b" in conformance with page 9, lines 8 and 11 and Figure 9.

Attachment: Replacement Sheet

Annotated Sheet Showing Changes

### **REMARKS**

Corrected drawing sheets are submitted with this response to obviate the objections in paragraphs 1 and 2 of the Office Action, and the specification is amended to obviate the objections in paragraphs 3 and 4. Moreover, the specification and claim 20 have been amended to obviate the objections in paragraphs 5 and 6.

Claims 1-20 are rejected under 35 U.S.C. §112, second paragraph, for alleged indefiniteness. The claims have been amended to obviate the noted rejections.

Applicants appreciate the Examiner's statement that claims 1-20 appear to be allowable if rewritten or amended to overcome the rejections under Section 112. Having made the appropriate amendments, Applicants respectfully submit that this application is in condition for allowance. Any remaining concerns can be directed to undersigned counsel.

Respectfully submitted,

Dated: July 25, 2005
